

ACCESS TO COUNTY HIGHWAYS

An access permit must be obtained from the Freeborn County Highway Department prior to constructing, improving or changing the use of access, either temporary or permanent, on a county state aid highway or a county road under the jurisdiction of Freeborn County.

Design requirements for an access shall be a minimum eighteen-foot (**18'**) wide and a maximum thirty-two foot (**32'**) wide finished gravel top with 6:1 side slopes. The County Engineer, or approved representative, shall determine the size and elevation of culverts, if necessary, as required for drainage purposes. Culverts shall be obtained through the Freeborn County Highway Department. All costs for construction of said entrances, except for aggregate surfacing, shall be at the owner's expense.

Revised December 29, 2003
