

DVS Special Update

Apply for Driver's License/ID Online

Fast DS implemented the online application that allows Minnesotans to renew or replace a standard driver's license or ID card. The service is available by selecting **Apply for a Driver's License or State ID** and following the prompts at drive.mn.gov.

Customers who want to change their name or address, their signature or driver's license number cannot use the online application. Customers with those changes or who want to upgrade to a REAL ID or EDL must visit an office.

Card holders will not be required to have a vision screening and new photo taken until the next time they renew or upgrade their license.
