

CSAH 26 Culvert Replacement in City of Hayward – This project is complete and County Road 26 in Hayward is now open.

CSAH 26 Culvert Replacement 0.7 miles north of CSAH 13 – This project began on Tuesday October 1 and will take approximately two weeks. The project involves the replacement of a large concrete box culvert. There is a signed detour for this project that uses County Roads 19, 30, and 13.

CSAH 17 Culvert Replacement near west County Line – This project will involve the replacement of a steel culvert with a new concrete arch pipe. This is planned to be the last of the three culvert projects and has an approximate projected start date of October 14. Please check back for updates on the status of this project. The detour route will use County Roads 4 and 46 and also Faribault County Roads 16 and 30. This project is expected to take two weeks to complete.
