

CSAH 17 Culvert Replacement near west County Line – This project will involve the replacement of steel culverts with new concrete arch pipes. This is planned to be the last of the three culvert projects and has a revised start date of October 18. The detour route will use County Roads 4 and 46 and also Faribault County Roads 16 and 30. This project is expected to take two weeks to complete.

CSAH 26 Culvert Replacement in City of Hayward – This project is complete and County Road 26 in Hayward is now open.

CSAH 26 Culvert Replacement 0.7 miles north of CSAH 13 – This project is complete and County Road 26 between Hayward and Glenville is now open.
